

Tony Ghodsi

**Principal
Director of Orange County Office**

PROFESSIONAL EXPERIENCE

Mr. Ghodsi has been a practicing engineer with EPI/ESI since March of 1986. His area of expertise includes structural design of space frame steel structures, concrete frame or shear wall structures and timber structures, as well as seismic evaluation of existing structures. He is a registered Civil and Structural Engineer in the State of California. Mr. Ghodsi has directed the structural design of many diverse projects throughout California, including:
