

Lawrence Y. Ho

Principal

PROFESSIONAL EXPERIENCE

Lawrence Ho has extensive design experience in commercial, institutional and industrial type projects. He has designed projects throughout seismic and hurricane active regions for almost 30 years. He has been responsible for numerous projects constructed by innovative design methods such as up/down construction, precast seismic bracing systems, and vertical expansions. He is a registered Civil and Structural Engineer in the State of California and numerous other states throughout the nation. Mr. Ho has directed the structural design of many diverse projects throughout the United States, including:
