

Russell Tanouye

Principal

PROFESSIONAL EXPERIENCE

Mr. Tanouye joined the firm in 1981. During his 27-year history with the firm he has developed extensive experience in the design of various types of structures including steel, prestressed concrete and cast-in-place concrete. Mr. Tanouye has participated in the structural design of commercial facilities inclusive of regional retail, office and mixed-use projects, hotels, and parking structures as well as the design of various institutional, jail and justice facilities. He is a LEED AP and a registered Civil and Structural Engineer in the State of California, Florida and Nevada, and has directed the structural design of many diverse projects throughout the United States, some of which include:
