Professional Experience

Mr. Ghodsi has been a practicing engineer with Englekirk Structural Engineers since March of 1986. His areas of expertise include structural design of space frame steel structures, concrete frame or shear wall structures and timber structures, as well as seismic evaluation of existing structures.

His responsibilities include primary client contact, selection and design of structural systems, direction of construction document preparation, and construction administration.

He is a registered Civil and Structural Engineer in California, Oregon, Texas, Nevada, Florida, Pennsylvania, Arizona, and New Mexico.

Education

University of Southern California, BS, Civil Engineering, 1982

University of Southern California, MS, Civil: Structural Engineering, 1983

Affiliations
