

Revit Structural Modeling Position (Los Angeles)

Englekirk Structural Engineers is in search of a Structural Revit Modeler / Draftsmen to join the team. Successful candidates would be experienced Revit Structural Modelers/CAD Technicians with a minimum of 2 years structural experience. Salary is competitive and benefits are excellent. Applicants must be able to work in the office; no off-site work permitted. Office is located in downtown Los Angeles. Office hours are 8:00 a.m. to 5:00 p.m., M-F. Flexible dependent on further discussion.

REQUIRED SKILLS

- 2 years minimum Revit Structural Modeling experience.
- Must be knowledgeable in Revit versions 2014 to present.
- Able to follow engineers' sketches to produce Structural Revit models with supervision.
- Familiar with Revit setups (i.e., Templates, View Templates, Worksets and Families).
- Familiar with most drawing aids and techniques (i.e., modeling, editing, and dimensioning).
- Efficiently able to manage time to meet deadlines.
- Experience with structural steel, concrete and wood for commercial, office, residential, retail and institutional projects.
- Able to read moderately complex architectural and structural drawings.
- Strong verbal and written communication skills.
- Understand structural vocabulary and terminology.
- Navisworks capability a plus.

OTHER REQUIREMENTS

- Local candidates only please.
- Must be authorized to work in US. No sponsorship available for this position.
