

**Christopher R.
Rosien**
Principal
Chief Financial Officer

Professional Experience

Chris Rosien began his association with Englekirk Structural Engineers in 1988 and joined as a full-time employee in 1992. He is a Principal in the firm and the Chief Financial Officer responsible for the efficient operation of the accounting, contracts administration, risk and financial management functions of the firm. Utilizing his background in Business Administration, he keenly collaborates with the other principals to support the production and overhead needs of the organization at large.
