Professional Experience

Russell Tanouye joined Englekirk in 1981. During his history with the firm he has developed extensive experience in the design of various types of structures including steel, prestressed concrete and cast-in-place concrete, and wood. Mr. Tanouye has participated in the structural design of commercial facilities inclusive of regional retail, office, and mixed-use projects, hotels, and parking structures. Key projects include the Pacific Design Center – Red Building and Hollywood & Highland, Dolby Theatre - Home of the Academy Awards.

Mr. Tanouye is a LEED AP and practices a holistic approach for LEED certification through effective collaboration with the owner, architect, and other consultants to develop a structural system that can assist the team towards LEED certification.

His responsibilities include primary client contact, selection and design of structural systems, direction of construction document preparation, and construction administration.

He is a registered Civil and Structural Engineer in California, Colorado, Florida, Louisiana, Massachusetts, Nevada, Tennessee, and Utah.

Education

University of the Pacific, Stockton, California, BS, Civil Engineering, 1980
